

CABLE TIE HOLDER FOR GAS NAILER

Usage:

- Bundling and organizing electrical cables and wires in residential, commercial, and industrial settings.
- Securing components in automotive and aerospace assemblies.
- Managing network and data cables in IT installations.
- Fastening items in construction projects and home DIY tasks.

Advantages:

- **Material:** Manufactured from high-quality nylon (Polyamide 6.6) for strength and flexibility.
- **Design:** Self-locking mechanism ensures a secure hold without slipping.
- **Color Options:** Typically offered in black and natural colors; other colors may be available for specific applications.
- **Temperature Resistance:** Suitable for a wide temperature range, maintaining performance in various conditions.
- **UV Resistance:** Black cable ties are UV-resistant, making them ideal for outdoor use.
- **Compliance:** Meet industry standards for flammability and tensile strength.

Cable Tie Holder for Gas Nailer

Product Code	Description	Max Cable	Box Packing	Outer Packing
TGA8BBP	For use with Gas Nailer tools Black	10	100	2400
